Introduction

This document is designed to help individuals and organisations inform their training decisions by presenting the core courses we offer, their content, costs and our flexible methods of delivery.

Qualification: Level 4 Diploma in Fire Safety (Fire Inspectors)

This document identifies courses available for delegates to achieve a Level 4 Diploma in fire safety.

Target audience

The qualification is suitable for those who are:

- a) **responsible for ensuring fire safety** arrangements are suitable, sufficient and maintained e.g. risk assessors, managers, staff, owners and occupiers.
- b) **regulators of fire safety** e.g. fire services.

Premises type

This qualification applies to those who operate in complex premises and environments e.g. large premises, shopping centres, sleeping accommodation, places of assembly, theatres cinemas and open air events.

National Occupational Standards (NOS) and qualification units

There are 12 fire safety National Occupational Standards within this qualification. Some units are mandatory and others are optional. For more details please see tables on the following pages.

Courses

Nine courses form this qualification. For more details please see the following pages for cross-mapping with the National Occupational Standards, qualification units, course content and costs.

Level 4 Diploma in Fire Safety (Fire Inspectors)

The tables below cross-map the qualification units, National Occupational Standards with courses

NOS	Title	Credit	GLH	Xact course	Page
Mandatory units					
FS2	Assess risks associated with fire in complex premises and environments	5	20	Auditing complex premises 1 - theory	4
FS3	Ensure measures are in place to protect people from fire in complex premises and environments	5	21	Auditing complex premises 2 - practical	5
FS7	Review fire protection systems in complex premises and environments	5	28	Auditing complex premises 1 - theory	4
FS9	Review safety measures at locations that are regulated and or licensed	4	28	Regulated and licensed premises	6
FS12	Visit complex premises and environments for the purposes of fire safety regulation	4	15	Auditing complex premises 2 - practical	5
FS6	Review fire safety matters relating to existing or proposed construction	7	50	Building Regulations & Technical Guidance	7
Total credits		30	162	Total guided learning hours	

Mandatory and optional units

To achieve the qualification, delegates must achieve all six mandatory units and a minimum of two optional to provide a total of 37 credits.

NOS	Title	Credit	GLH	Xact course	Page
Optional units					
FS4	Work in partnership to minimise risks to community	4	10	Community fire safety	10
FS5	Support the management of risks at incidents	4	15	Fire safety at incidents	11
FS8	Review fire safety matters relating to premises under construction, demolition and alteration	4	10	Construction, Design and management Regulations	9
FS11	Prepare and present evidence in court and other formal proceedings in relation to fire safety matters	3	21	Fire Safety Order enforcement: Full investigation	12
FS13	Draft statutory enforceable documents for the purposes of fire safety regulation	3	7	Draft enforceable documents	15
FS14	Serve statutory enforceable documents for the purposes of fire safety regulation	3	7	Fire Safety Order enforcement: Full investigation	12

Notes

Note 1: NOS – National Occupational Standard number

Note 2: Credit - number of educational credits awarded for the unit on the QCF (Qualifications and Credit Framework)

Note 3: GLH, Guided learning hours - number of hours with specific guidance towards unit learning outcomes

Note 4: Page – page number of course

Cross mapping of courses to qualification units and national occupational standards

The table below cross maps Xact's Level 4 courses with the qualification units

Title	Days	Level	NOS	Page
Level 4 Diploma courses				
Auditing complex premises 1 - theory	5	4	FS2, FS7	5
Auditing complex premises 2 - practical	5	4	FS3, FS12	6
Regulated and licensed premises	4	4	FS9	7
Building Regulations & Technical Guidance	9	4	FS6	8
Construction, Design and management Regulations	1	4	FS8	9
Community fire safety	2	4	FS4	10
Fire safety at incidents	2	4	FS5	11
Fire Safety Order enforcement: Full investigation	5	4	FS11, FS14	12
Draft enforceable documents (Distance learning)	DL	4	FS13	15

Notes

Note 1: Days - course duration in days

Note 2: Level - qualification level of units

Note 3: NOS – National Occupational Standard number

Note 4: Page – page number of course

Auditing complex premises 1: Theory

Aim

To enable delegates to assess and review risks associated with fires in complex premises

Main topic areas

- Distance learning: Fire Safety Legislation
- Day 1: Fire Safety Legislation Re-cap, Human behaviour in fire, causes and effects of fire
- Day 2: fire risk assessment, Training records, Information sources, Fire detection and alarm systems
- Day 3: Fire detection and alarm systems, Emergency escape lighting
- Day 4: Fire safety signs, notices and routines, Extinguishing media
- Day 5: Extinguishing media, Fire safety management

Core course documents

- Regulatory Reform (Fire safety) Order 2005 and CFA Fire Safety Guidance RR(FS)O
- Enforcement Concordat, Better Regulation Guide, Enforcement Management Model, IRMP
- CLG: Fire Safety Risk Assessment Guides
- PAS 79, BS 5839, BS 5266, BS 5499, BS 5306, BS EN2, BS 9999

Qualification and units

This course includes assessment criteria for NOS FS2 + FS7 of qualifications: Level 4 Diploma in Fire Safety (Fire Inspectors)

Delivery

Sessions will be delivered using PowerPoint, flipchart, interactive group discussion, individual tuition and practical exercises

Distance learning

This course includes a pre-course distance learning module

Duration

5 days

Auditing complex premises 2: Practical

Aim

To enable delegates to confirm measures are in place to protect people from fire in complex premises and visit complex premises for the purpose of fire safety regulation

Main topic areas

- Day 1: Risk profiling + variations, minimum protection levels, staircases
- Day 2: Ventilation, MoE in Offices, MoE in Shops, MoE in Factories and warehouses
- Day 3: MoE in Hotels, Atria, Shopping Complexes
- Day 4: Shopping Complexes, Commercial Sprinklers, Pressurisation, Smoke control systems
- Day 5: Auditing + planning, Audit of complex premises
- Post course module: Audit of a complex premises

Core course documents

- CLG: Fire Safety Risk Assessment Guides
- BS EN 12845, BS 9999, BS 7974
- Approved Document B
- CFOA Fire Safety Guidance Notes and Audit Form

Qualification and units

This course includes the assessment criteria for NOS FS3, FS7, FS12: Level 4 Diploma in Fire Safety (Fire Inspectors)

Delivery

Sessions will be delivered using PowerPoint, flipchart, interactive group discussion, individual tuition and practical exercises. An audit of complex premises is also included

Distance learning

This course includes a post-course audit report

Duration

5 days

Regulated and licensed premises

Aim

To enable delegates to review fire safety matters at locations which are regulated and licensed

Main topic areas

- Legislation
- Roles, responsibilities and working with other enforcement agencies
- Crowd behaviour and control
- Reviewing safety measures
- Determine risks
- Recommend controls to manage specific risks

Core course documents

- Regulatory Reform (Fire safety) Order 2005
- Licensing Act 2003 and Gambling Act 2005
- Safety at Sports Grounds Act 1975
- CLG: Fire Safety Risk Assessment Guides, Places of Assembly
- CLG: Fire Safety Risk Assessment Guides, Theatres, Cinemas and Similar Places
- BS 9999 Annex D: Theatres, Cinemas and Similar Venues
- The Guide to Safety at Sports Grounds (Home Office) 2008
- Guide to safety at sports grounds (fifth edition)
- CLG: Fire Safety Risk Assessment Guides, Open Air Events and Venues
- Guide to health, safety and welfare at pop concerts and similar events

Qualification and units

This course includes the assessment criteria for NOS FS9 of qualifications: Level 4 Diploma in Fire Safety (Inspectors)

Delivery

Sessions will be delivered using PowerPoint, flipchart, interactive group discussion, individual tuition and practical exercises

Duration

4 days

Building Regulations and Technical Guidance

Aim

To enable delegates to assess building design submissions and give advice

Main topic areas

- Distance learning The Building Act, Building Regulations and Statutory Consultation
- Day 1: The Building Act, Building Regulations and Statutory Consultation
- Day 2-5: Means of escape horizontal and vertical
- Day 6: Internal fire spread linings and structure
- Day 7: External fire spread
- Day 8: Access to buildings' and evacuation of disabled people
- Day 9: Access and facilities for fire and rescue service

Core course documents

- Regulatory Reform (Fire safety) Order 2005
- The Building Regulations and Fire Safety Procedural Guidance
- Approved Document B Volume II
- Approved Document M
- BR 187, BS 5838, BS5266
- BS 9999 - disability, access & facilities sections

Qualification and units

This course includes the assessment criteria for NOS FS6 of qualification: Level 4 Diploma in Fire Safety (Fire Inspectors)

Delivery

Sessions will be delivered using PowerPoint, flipchart, interactive group discussion, individual tuition and practical exercises. Including an disability audit of a premises

Distance learning

This course includes a pre-course distance learning module

Duration

9 days

Construction, Design & Management Regulations 2007

Aim

To enable delegates to review fire safety matters relating to premises under construction, demolition and alteration

Main topic areas

- Legislation
- Roles and responsibilities
- Working with other enforcement agencies
- Reviewing fire safety matters
- Assessing fire risks
- Advising on controls to manage fire risks
- Advising on controls to manage fire risks in vicinity

Core course documents

- Regulatory Reform (Fire safety) Order 2005
- Construction (Design And Management) Regulations 2007
- Health and Safety in Construction HSG 150 Third Edition 2006
- Fire Safety in Construction HSG 168 2010
- Health and Safety at Work Act 1974
- Control of Major Accident Hazards Regulations 1999
- Management of Health and Safety at Work Regulations 1999

Qualification and units

This course includes the assessment criteria for NOS FS8 of qualification: Level 4 Diploma in Fire Safety (Fire Inspectors)

Delivery

Sessions will be delivered using PowerPoint, flipchart, interactive group discussion, individual tuition and practical exercises

Distance learning

This course includes a short pre-course distance learning module

Duration

1 day

Community Fire Safety

Aim

To enable delegates to develop their knowledge and skills to work in partnership to minimise risks to the community

Main topic areas

- Community safety project in the workplace
- Community safety planning and partnership working
- Information collection, analysis and use of toolkits
- Implementing community safety initiatives and evaluation
- Communication and working with the media
- Access funding
- Education programmes and working with young people

Core course documents

- Delivering safer communities - guidance for crime and disorder reduction partnerships and community safety partnerships
- Working in partnership
- Internet based Community safety toolkits

Qualification and units

This course includes the assessment criteria for NOS FS4 of qualification: Level 4 Diploma in Fire Safety (Fire Inspectors)

Delivery

Sessions will be delivered using PowerPoint, flipchart, interactive group discussion, individual tuition and practical exercises

Distance learning

Post-course community safety project

Duration

2 days

Fire safety at incidents

Aim

To enable delegates to support the management of risks at incidents

Main topic areas

- Legislation
- Roles and responsibilities
- Working with other enforcement agencies
- Requirements for supporting the management of risks
- Obtaining information to assist with the management of risks
- Advise on management of risks during and post incidents

Core course documents

- Fire and Rescue Services Act 2004
- Regulatory Reform (Fire safety) Order 2005
- Health and Safety at Work Act 1974
- Control of Major Accident Hazards Regulations 1999
- Management of Health and Safety at Work Regulations 1999
- Reporting of Injuries, Diseases & Dangerous Occurrences Regulations 1995
- Environment Act 1995
- The Environmental and Safety Information Act 1988
- The Building Act 1984
- Control and Mitigation Measures - Dangerous Substances and Explosive Atmospheres Regulations 2002

Qualification and units

This course includes the assessment criteria for NOS FS5 of qualification: Level 4 Diploma in Fire Safety (Fire Inspectors)

Delivery

Sessions will be delivered using PowerPoint, flipchart, interactive group discussion, individual tuition and practical exercises

Duration

2 days

Fire Safety Order: Full investigation

Target audience

Fire Safety Officers, Inspectors and Fire Safety Managers

Delegates are guided through a complete investigation of a breach of the Fire Safety Order from identification of the breach to prosecution and cross-examination in court

Aim

To investigate contraventions of the Regulatory Reform (Fire Safety) Order 2005

Main topic areas

- Legal powers, duties and responsibilities
- Investigation best practice
- Investigation planning
- Evidence gathering, evaluation and continuity
- Taking contemporaneous notes
- Writing and taking witness statements
- Interviewing witnesses and defendants
- Collecting and managing information and evidence
- Serving statutory enforceable documents
- Informing relevant persons and organisations of circumstances
- Producing a report and case file to show an offence has been committed
- Presenting evidence and facing cross examination in Court

Legislation

- Regulatory Reform (Fire safety) Order 2005
- Human Rights Act 1998
- Public Interest Disclosure Act 1998 (Whistleblower)
- Police and Criminal Evidence Act 1984 and the Codes of Practice (PACE)
- Regulation of Investigatory Powers Act (RIPA)
- Criminal Procedure and Investigations Act 1996 (CPIA)
- CFA Guidance documents and MG forms
- Enforcement Concordat and BERR Better Regulation Guide

Qualification and units

This course includes the assessment criteria for NOS FS11, FS14 of qualification: Level 4 Diploma in Fire Safety (Fire Inspectors)

Level 4: Fire Safety Order: Full investigation

Learning

Practice

Debrief

Learning methods and syndicates

Facilitated by tutors, delegates conduct exercises in groups of up to 4 to fully engage in the interactive experiential learning process and so they can share existing experience and skills. In syndicates, they conduct investigations after receiving packs covering different contraventions and containing details of previous events, records, pictures and statements. Tutors and actors offer syndicates support and feedback.

Learning methods and syndicates

Facilitated by tutors, delegates conduct exercises in groups of up to 4 to fully engage in the interactive experiential learning process and so they can share existing experience and skills. In syndicates, they conduct investigations after receiving packs covering different contraventions and containing details of previous events, records, pictures and statements. Tutors and actors offer syndicates support and feedback.

Day 1 AM - Investigation legislation and best practice. Planning and managing investigations, managing whistleblowers and anonymous information, Decision making and recording decisions

PM - Managing evidence, contemporaneous notes and witness statements

Exercise using a video of a fire safety contravention using professional actors

Day 2 AM – Witness and suspect interviews. Cautioning of suspects and tape recorded interviews, PACE Codes and serving notices.

PM - Working in syndicates serve a statutory document and plan for interviews the following day.

Level 4: Fire Safety Order: Full investigation

Day 3 AM-PM - Delegates interview witnesses and “responsible persons” (actors) at the centre of investigations. Witness statements are taken

Interviews involve procedures, facilities and equipment that form the components of real-life investigative interviews, namely:

- Interviewing witnesses
- Using NEAL twin tape PACE interview machines
- Unsealing of tapes
- Notifying suspects of their rights
- Interviewing suspects
- Labelling master tapes

Tape-recorded interviews are transcribed for Magistrates Court on Day 5

Day 4 AM – Investigators compile witness statements; bag, label and log evidence; discuss findings, write reports with conclusions and recommendations, write witness statements, complete CPIA statements and case files, liaise with prosecuting lawyer

Day 5 AM – Process in a Magistrates Court, managing cross-examination and introducing documents in witness box

AM-PM Magistrate Court Hearings Chaired by a magistrate, reconstructions of hearings take place for each syndicates' investigation. Investigators are led through their findings before cross-examination by a lawyer in front of the rest of the cohort

Delivery method

PowerPoint presentations, flipchart explanation, group discussion, individual tuition, case studies, syndicate work, interviews and practical exercises

Delegate numbers

12 - 16

Distance learning

This course includes a pre-course distance learning module

Course duration

5 days

Draft enforceable documents

Aim

To enable delegates to draft statutory enforceable documents for purposes of fire safety regulation

Main topic areas

- Legislation, offences and notices
- Identifying offences and responsible person
- Requirements for drafting statutory enforceable documents
- Drafting statutory enforceable documents

Core course documents

- Regulatory Reform (Fire safety) Order 2005
- Human Rights Act 1998
- Police and Criminal Evidence Act 1984 (PACE)
- CFA Guidance documents
- Enforcement Concordat
- BERR Better Regulation Guide

Qualification and units

This course includes the assessment criteria for NOS FS13 of qualification: Level 4 Diploma in Fire Safety (Fire Inspectors)

Delivery

Provision of reading guide, reading material, on-line questionnaire and assignment

Distance learning

This course is a distance learning course

In-house and open course costs

Please note that in-house course costs are based on customer provision as outlined in Appendix C

Page	Course	Duration	In-house	Open
5	Auditing complex premises 1: Theory	5 days	7,500	750
6	Auditing complex premises 2: Practical	5 days	7,500	750
7	Regulated and licensed premises	4 days	5,900	590
8	Building Regulations & Technical Guidance ³	9 days	12,100	1,100
9	Construction, Design & Management Regulations	1 day	1,400	140
10	Community fire safety	2 days	2,600	260
11	Fire Safety at incidents	2 days	2,600	260
12	Fire Safety Order enforcement full investigation	5 days	12,800	980
15	Draft enforceable documents (Distance learning)	DL	N/A	120

Qualification fees

Industry Qualifications (IQ) and Edexcel are the only awarding bodies for this qualification.

See below for additional charges for the qualification per delegate with each awarding body.

Please note that a partnership arrangement with Industry Qualifications means Xact is able to offer the qualification through IQ at a reduced rate.

Apart from price, if booked via Xact, there is no difference between qualifications offered by either awarding body.

Registration fee for Level 4 Diploma Fire Safety (Fire Inspectors)	50.00
Approved Assessment Centre fees, per qualification:	45.00

Registration fee for Level 4 Diploma Fire Safety (Fire Inspectors)	124.90
Approved Assessment Centre fees, per qualification:	135.00

Notes:

- Note 1: In-house courses** - Inclusive cost for course e.g. notes, guidance documents, exercises, tutor travelling and accommodation. Does not include teaching facilities provided by customer. See Appendix C.
- Note 2: Open courses** - cost includes teaching facilities, refreshments and lunch during teaching day. Additional charge for bed, breakfast and evening meal – see below.
- Note 3: Guidance documents** - delegates should provide their own copies of guidance documents. Alternatively copies of these documents can be provided for delegates to use on the course at no cost.
- Note 4: VAT** will be added at the current rate.
- Note 5: Payment terms:** Within 30 days of invoice date.
- Note 6: Open courses** are normally located at Yarnfield Park Training and Conference Centre, Yarnfield Lane, Yarnfield, Stone, Staffordshire ST15 0NL.
- Note 7: Overnight accommodation** with en-suite facilities is available at Yarnfield Park at £59 for bed, breakfast and evening meal. **Note** Sunday night rate is £46 because no evening meal is available. Snacks such as soup, sandwiches and pies can be purchased from the bar between 6-9 pm.
- Note 8: Open courses** are also provided at other locations. Accommodation charges at these venues will differ from those quoted above.

Distance learning

Delegates need the following resources to complete on-line distance learning options:

- Computer with internet access
- Adobe reader software
- Access to a printer

Some courses require delegates to have access to their organisations' policies and procedures

Distance learning module

When part of the course is completed on-line by pre-course study or post course assignment or both:

On-line pre-course study

Delegates are provided with:

- Online course guide to the module
- Reading material for course
- Module work book for completion before course commences

Post course assignment

Delegates are provided with all resources during the course. They complete the last phase in their workplace on courses:

- Auditing complex premises 2: Practical: Audit report
- Community fire safety: Community safety project

Teaching facilities for in-house courses

All courses:

Require a main teaching room with following facilities:

- Delegate chairs and desks (minimum 0.75m x 0.75m per delegate)
- Tutor table and chair
- Whiteboard, dry marker pens and eraser (or flipchart)
- Data projector for PowerPoint with either:
 - Computer which can upload PowerPoint from a memory stick, *or*
 - Connection for laptop
- Projection screen for data projector
- 240v electrical supply for laptop
- Tutor and teaching staff refreshments during teaching day

Additional requirements for specific courses:

1: Auditing complex premises 2: Practical

- Day 5: venue for practical audit exercise – a complex premises
- Transport to exercise venues
- Access to FRSMIS system (or equivalent) to complete audit correspondence

2. Building Regulations and Technical Guidance

Venue for practical disability exercise on day 7 – the teaching venue can be used for this exercise

3: Fire Safety Order enforcement: Full investigation

- 3/4 interview/syndicate rooms
- Internet access to upload PACE interviews onto a secure website for transcription

Course support information

National Occupational Standards and IPDS modules

Courses are designed to cross-map with the relevant National Occupational Standard (NOS).

For example, courses include all NOS: FS1, FS2, FS3, FS4, FS5, FS6, FS7, FS8, FS9, FS10, FS11, FS12, FS13, FS14

Legislation, British Standards and technical guidance documents

Delegates have access to a wide range of Technical Guidance, British Standards, best practice and reference material on courses. Hard copies for classroom work and on-line versions for distance learning, study programmes and project work are available.

Awarding Body: Industry Qualifications

Xact provides national qualifications via awarding body Industry Qualifications. Xact is an Approved Assessment Centre for IQ. The qualifications are in all respects identical to those offered by other awarding bodies e.g. Edexcel.

QA Associates

QA Associates, which has BTEC and Edexcel Approved Centre status, provides:

- Qualification design
- Development of BTEC approval with Edexcel
- Internal verification for qualifications

Continual Professional Development

Xact is a member of the Continual Professional Development (CPD) Certification Service. Courses are independently assessed by the Service and comply with their professional standards. CPD Certification Service “branded” certificates, denoting attendance of 6-7 hours per day

Delivery method

PowerPoint presentations, flipchart explanation, group discussion, individual tuition, practical and plan-based exercises

Courses

Courses consist of three phases:

- Learning – acquiring knowledge, understanding and skills
- Practising learning – using real-life reconstructions designed to replicate workplace activities of delegates
- Comprehensive debrief – to confirm learning

Site visits

Some training may require site visits to premises to enable learning outcomes to be achieved e.g. foundation, auditing premises and building regulations. Xact will work with the customer to identify suitable training locations

Delegate numbers

Xact restricts delegate numbers to allow an optimal level of interaction between delegates and tutor. This provides delegates with the best opportunity to achieve learning outcomes

Assessment

Courses are assessed. Assessment standards are based on delegates National Occupational Standard workplace roles

Xact provision

On courses, Xact provides:

- Tutor with experience and expertise in course subject areas
- Specialist teaching staff such as lawyers, magistrates and trained actors
- Course design
- Comprehensive delegate manuals
- Delegate exercises to practise learning outcomes
- Specialist equipment
- Course assessment
- Course evaluation

Location and dates

To suit customer. Please call to discuss options

Enquiries

Please call us on 0845 0941 885 or complete enquiry form (Appendix F)

Stone conference centre – open courses

Address

Yarnfield Park Training and Conference Centre, Yarnfield, Stone, Staffordshire ST15 0NL

Meals

Breakfast, lunch and evening meals are provided in the restaurant

Overnight accommodation

This includes:

- Evening meal
- En-suite bedroom
- Breakfast
