1. Introduction

This document is designed to help individuals and organisations inform their training decisions by presenting the core courses we offer, their content, costs and our flexible methods of delivery.

1.1 **Qualification: Level 4 Certificate in Fire Safety (Fire Auditors)**

This document identifies activities individuals need to complete to achieve the above qualification.

1.2 **Target audience**

A qualification for those who fire risk assess complex premises and environments e.g. large premises, shopping centres, sleeping accommodation, places of assembly and open air events.

1.3 **Complex building types**

Complex premises are generally those designed and built using more complex design guidance such as BS 9999: Fire safety in the design, management and use of buildings. This allows a more transparent and flexible approach to fire safety design through use of a structured approach to risk-based design where designers can take account of varying physical and human factors.

Note: Concepts of fire safety can be applied to other complex premises types.

1.4 **Setting The Bar: A New Competence Regime for Building A Safer Future**

Obtain this qualification in preparation for the mandatory requirements which will be in place by for fire risk assessors in March 2022. See Working Group 4 (Fire Risk Assessors) in the above report.

1.5 **Level 4 Commitment**

Individuals and their organisations should understand the additional commitment required for those who start their fire safety learning experience at Level 4 (complex buildings) without previously completing the Level 3 Certificate (simple buildings) and putting the learning into practice.

Note: See 2.4 for more details

1.5.1 **Summary**

Individuals attending Level 4 courses without previously completing a Level 3 Certificate should be aware of the following:

1. Introduction

- a) Individuals will experience a steeper learning curve, in particular using documents such as BS 9999 before having the chance to use simpler guidance such as the DCLG Fire Risk Assessment Guides.
- b) Some individuals, who were new to study at this level have struggled with the demands of work required.
- c) Individuals will be disadvantaged by missing out of some learning aspects e.g. planning and gathering evidence is at Level 3 only.
- d) Individuals do not have the opportunity to practice and consolidate their auditing or risk assessing skills in simple buildings before moving onto complex buildings.
- e) Xact recommends completing Level 3 Certificate before moving to the Level 4 qualifications.
- f) Ofqual knowledge and skills requirements for Level 4 qualifications. See Section 2.6.
- g) Courses amount to less than 50% hours of learning with remainder being completed outside course hours.

1.6 Qualification requirements and National Occupational Standards (NOS)

This qualification consists of five NOS. Please see Section 2. Qualification for more details.

1.7 Further Progression

This qualification creates the opportunity for progression to the Level 4 Diploma in Fire Safety (Fire Inspectors) e.g. those who fire risk assess complex premises, responding to building regulation submissions and two/three optional units. See [web link](#) for more details.

1.8 Continual Professional Development Certificates

Individuals receive CPD certificates on completion of each course.

1.9 Open-courses booking

For [on-line booking](#)

1.10 Terms and conditions

Please also see our [website link](#) for a copy of our Terms and Conditions.

All orders and bookings made will be subject to our Terms and Conditions.

2. Qualification

2. Qualification

2.1 Qualification: Level 4 Certificate in Fire Safety (Fire Auditors)

This qualification is aimed at individuals who work or intend to work in a position of responsibility for fire safety arrangements. It provides learners with formal recognition of their competence to work as a fire risk assessor within complex premises.

2.2 Qualification Awarding Bodies

This qualification is provided via awarding body Skills for Justice Awards. Xact is an Approved Assessment Centre for this awarding body.

2.3 Qualification NOS

The qualification has five mandatory NOS (National Occupational Standards).

NOS	Unit title	Credit	TQT	GLH
FS2	Assess risks associated with fire in complex premises and environments	5	50	20
FS3	Ensure measures are in place to protect people from fire in complex premises & environments	5	50	21
FS7	Review fire protection systems in complex premises and environments	5	50	28
FS9	Review safety measures at locations that are regulated and/or licensed	4	40	28
FS12	Visit complex premises and environments for the purposes of fire safety regulation	4	40	15
			230	112

Note 1: Guided learning hours (GLH): The number of hours with specific guidance towards learning.

Note 2: Total qualification time (TQT): GLH plus number of hours a learner will reasonably be likely to spend in preparation, study or any other form of participation in education or training, including assessment.

2.4 Study commitment

To complete this qualification individuals are committing to a programme of study of 230 TQT (Total Qualification Time) which consists of a wide variety of activities, including:

- a) Self-study, research and reading course reference material
- b) Attending courses and completing a fire risk assessment
- c) Application of learning and writing assignments

Note: Certificate programme consists of 105 hours attending courses with remainder being from self-study, research, application of learning and written assignments. See Section 2.3.

2. Qualification

2.5 Cross mapping of activities with qualification NOS

The table below cross maps activities with qualification NOS

Activity title	Days	NOS	Page
Principles of fire safety + DL module	5	FS2 ¹ , FS3 ¹ , FS7 ¹	6
Auditing/FRA complex premises + DL module	5	FS2 ¹ , FS3 ¹ , FS7 ¹ , FS12 ¹	8
Regulated & Licensed Venues	5	FS2 ¹ , FS3 ¹ , FS7 ¹ , FS9	10
Workplace Fire Risk Assessment	DL	FS12 ¹	12

Notes

Note 1: Days: Course duration in days

Note 2: NOS: National Occupational Standard Identity Number

Note 3: Page: Document page number of course/activity

Note 4¹: Evidence from more than one course/activity is required to complete NOS assessment criteria

2.6 Qualification requirements

Government regulator Ofqual provides the following guidance on the requirements for individuals to demonstrate that they possess the following knowledge for a Level 4 qualification:

2.6.1 Knowledge requirement

- a) Practical, theoretical or technical knowledge and understanding of a subject or field of work to address problems that are well-defined but complex and non-routine.
- b) Ability to analyse, interpret and evaluate relevant information and ideas.
- c) Awareness of the nature of approximate scope of the area of study or work.
- d) Informed awareness of different perspectives or approaches within the area of study or work.

2.6.2 Skills requirement

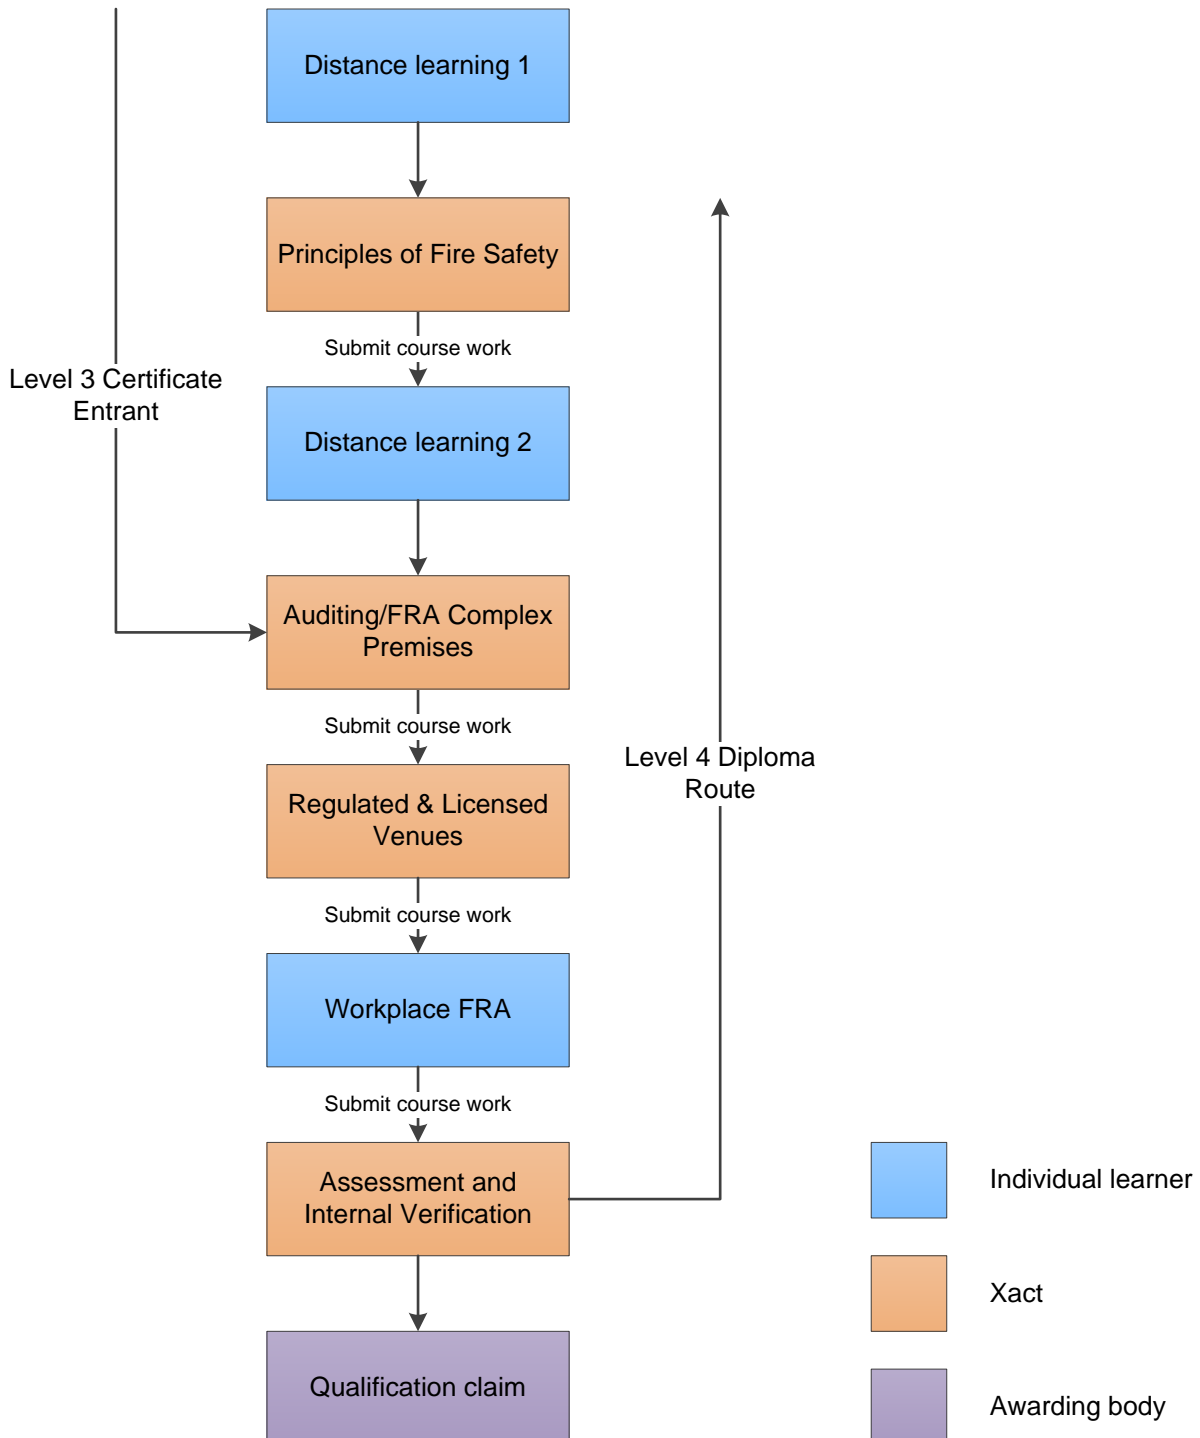

- a) Identify, adapt and use appropriate cognitive and practical skills to inform actions and address problems that are complex and non-routine while normally fairly well-defined.
- b) Review the effectiveness and appropriateness of methods, actions and results.

3. Level 4 Certificate Activities

3. Level 4 Certificate Activities

Introduction

The flowchart below illustrates progression of Level 4 Certificate in Fire Safety activities from start to finish.

Note: Distance learning modules are issued one month before proceeding course.

3.1 Course: Principles of Fire Safety

3.1 Principles of Fire Safety

Aim

To enable individuals to identify and report hazards and assess risks associated with fire in buildings.

Main topic areas

- Fire Safety Legislation
- Human behaviour in fire
- Causes and effects of fire
- Fire detection and alarm systems
- Emergency escape lighting
- Fire safety signs, notices and routines
- Extinguishing media
- Fire safety management
- Fire risk assessment

Core course documents

- Regulatory Reform (Fire safety) Order 2005
- CFOA Enforcers' Guidance
- BIS: Regulators' Code, HSE: Enforcement Management Model
- DCLG: Fire Safety Risk Assessment Guides
- BS 5839, BS 5266, BS 5499, BS 5306, PAS 79, BS 9999 (management)

Qualification and units

Course includes assessment criteria for NOS FS2¹, FS3¹ and FS7¹ of qualification: Level 4 Certificate in Fire Safety (Fire Auditors).

Note¹: Evidence from more than one course/activity is required to complete NOS.

Delivery

Sessions will be delivered using PowerPoint, whiteboard presentation, interactive group discussion, individual tuition and practical exercises.

Note: Due to current situation the courses will be delivered using iVC. See Section 5 for more details.

3.1 Course: Principles of Fire Safety

Duration

5 days

Course assessment

Assessment of all course work is to the qualification assessment criteria.

Entry requirements

Individuals should:

- a) have ability to work at Level 4 or above
- b) be proficient in use of English Language
- c) be able to carry out mathematical calculations e.g. area and volume of cylinders and rectangular structures

Prior learning

Before the course, individuals are required to have the ability to recognise typical fire safety measures in buildings e.g. smoke detectors, fire extinguishers, exit signs. They also need to have an understanding of the fire risk assessor's role. Plus, individuals should also have experience of observing a fire risk assessor, assessing a building's fire safety measures.

Pre-course distance learning

Course includes pre-course distance learning module on principles: Fire Safety Legislation, Automatic Fire Alarm Systems and Emergency Escape Lighting.

Note: Distance learning modules are issued one month before course commences.

Post course

Individuals must complete course work within four weeks of course completion.

3.2 Auditing/FRA Complex Premises

Aim

To enable individuals to:

- Confirm measures are in place to protect people from fire in complex premises
- Visit complex premises and for purpose of fire risk assessment

Main topic areas

- Risk profiling of occupancy
- Compartmentation and ventilation
- Horizontal and vertical means of escape
- Audit planning
- External fire spread
- Access and facilities for the fire service
- Fire risk assessing premises

Core course documents

- DCLG: Fire Safety Risk Assessment Guides
- Approved Document B
- BS 9999 Fire safety in the design management and use of buildings
- CFOA Fire Safety Guidance Notes and Audit Form

Qualification and units

This course includes assessment criteria for NOS FS2¹, FS3¹, FS7¹ and FS12¹: Level 4 Certificate in Fire Safety (Fire Auditors).

Note¹: Evidence from more than one course/activity is required to complete NOS.

Delivery

Sessions will be delivered using PowerPoint, whiteboard presentation, interactive group discussion, individual tuition and practical exercises.

Note: Due to current situation the courses will be delivered using iVC. See Section 5 for more details.

3.2 Course: Auditing/FRA Complex Premises

Duration

5 days

Prior learning

Individuals must have completed: Principles of Fire Safety course

Pre-course distance learning

Course includes pre-course distance learning modules on principles of means of escape. Main topic areas include:

- Compartmentation
- Exits: widths, direction, discounting, alternative, inner rooms, corridors
- Travel distance
- Floor space factors
- Horizontal means of escape
- Vertical means of escape

Note: Distance learning modules are issued one month before course

Post course

Individuals must complete workbooks within four weeks of course completion.

Course assessment

Assessment of all course work is to National Occupational Standards.

3.3 Regulated & Licensed Venues

Aim

To enable individuals to review fire safety matters relating to locations which are regulated and licensed.

Core subject areas

- Legislation and working with other enforcement agencies
- HMO's: Houses in Multiple Occupation
- Crowd behaviour, safety and control
- Assembly buildings and performance venues
- Theatres and cinemas
- Night clubs and casinos
- Outdoor events and firework displays
- Pop concerts

Core course documents

- LACORS Housing Fire Safety Guide
- CLG: Fire Safety RA Guides, Places of Assembly
- CLG: Fire Safety RA Guides, Theatres, Cinemas and Similar Places
- BS 9999 Annex D: Theatres, Cinemas and Similar Venues
- CLG: Fire Safety RA Guides, Open Air Events and Venues
- HSG 123: Working together on firework displays
- HSG 154: Managing crowds safely
- The event safety guide (Purple Guide)
- Guide to safety at Sports Grounds (Green Guide)

Qualification and units

This course includes assessment criteria for NOS FS2¹, FS3¹, FS7¹ and FS9: Level 4 Certificate in Fire Safety (Fire Auditors).

Note¹: Evidence from more than one course/activity is required to complete NOS.

3.3 Course: Regulated & Licensed Venues

Delivery

Sessions will be delivered using PowerPoint, whiteboard presentation, interactive group discussion, individual tuition and practical exercises.

Note: Due to current situation the courses will be delivered using iVC. See Section 5 for more details.

Duration

5 days

Prior learning

Individuals must have completed: Auditing/FRA Complex Premises course

Post course

Individuals must complete workbooks within four weeks of course completion.

Course assessment

Assessment of all course work is to National Occupational Standards.

3.4 Workplace Activity: Fire Risk Assessment

Target audience

On successful completion of the “Regulated & Licensed Venues” course, individuals submit a workplace fire risk assessment (FRA) which should fulfil the following criteria:

- a) The FRA should have taken place in the last 12 months.
- b) Fire safety matters at the building were not suitable and sufficient.
- c) Advice on compliance, with options and prioritisation of actions, was provided.

Individuals are provided with a pro-forma (evidence collection guide) for the collection of evidence from their fire risk assessment.

Qualification and units

This activity includes assessment criteria for NOS FS12¹: Level 4 Certificate in Fire Safety (Fire Auditors).

Note¹: Evidence from more than one course/activity is required to complete NOS.

Activity assessment

Assessment of this activity is to National Occupational Standards.

4. Course and Qualification Costs

4. Course and Qualification Costs

4.1 Costs

Item	Activity	Duration	Page	Cost ¹
1	Principles of Fire Safety	5 days	6	790
2	Auditing/FRA Complex Premises	5 days	8	790
3	Regulated & Licensed Venues	5 days	10	790
4	Workplace Activity: Fire Risk Assessment	NA	12	00
5	Qualification registration		3	60
	Inclusive cost²			£2,430

Note¹: Cost per individual

Note²: **Inclusive cost:** Includes all elements detailed in Section 3 i.e. Course development and design, course tutors, course documents and folders, distance learning modules, postage, assessments, internal verification and qualification fee.

Note 3: **IT Resources:** Costs based on assumption that individuals will have the resources identified in Section 5.1 iVC Individual Requirements. See also 5.4 Restrictions to using iVC software.

Note 4: **Purchase Order Number:** With invoicing payment details must be provided. We are unable to accept orders unless full payment details are provided.

Note 5: **VAT** will be added at the current rate.

Note 6: **Payment terms:** Within 30 days of invoice date.

Note 7: Additional fees are incurred when:

- i) Submission deadlines are missed for non-valid reasons
- ii) Resubmission amounts to over 25% of original submission
- iii) Re-submission does not achieve a pass

4.2 COVID-19 Pandemic

The above presents increased risks of infection and other negative consequences to both tutors and individuals in attending classroom courses. These potentially entail:

- a) Disruption due to Government or local area restrictions or lock down
- b) Health risks to tutors and their families/social bubble
- c) Impact on insurance cover
- d) Requirement to self-isolate
- e) Non-availability for work due to self-isolation or infection
- f) Additional risks come from the requirement to use hotel accommodation, training facilities and public transport

Xact continues to review the situation. Should risk levels return to those pre March 2020, other options, such as classroom delivery, may be considered subject to Government guidelines.

5. iVC Interactive Virtual Classroom

5. iVC Interactive Virtual Classroom

5.1 iVC Individual Requirements

Individuals require the following to participate in Interactive Virtual Classroom:

- Laptop: Integral web camera, microphone, speakers or equivalent
- Internet connection
- Ability to receive course notes by post directly to home address or posted to work address from where notes can be sent on to their home address

5.2 iVC Delivery

iVC means individuals can access Xact's high quality training safely and securely while enjoying real-time, face-to-face contact with expert tutors.

Highly trained in our innovative format, they facilitate – currently in pairs – interactive learning where individuals are actively engaged in the learning process from the safety and convenience of their own preferred locations.

With **iVC**, customers save on accommodation and travelling fees while ensuring that individuals can train from home, if necessary. And it is family friendly too - welcomed by employees who prefer not to stay away from their own locations overnight to receive training.

Customers who have experienced **iVC** training courses and our hugely-popular demonstration sessions have been impressed with the polished, professional presentation and how easy it is to:

- View and interact with expert tutors and other course attendees
- Ask questions, discuss and share ideas
- Work in syndicates
- Enjoy enhanced learning via video, PowerPoint, virtual reality exercises

5.3 iVC Provision

On all **iVC** courses, Xact provides:

- Two tutors with experience and expertise in course subject areas
- Course design
- Comprehensive course manuals
- Exercises to practise learning outcomes
- Reference documents
- Course evaluation and assessment

5. iVC Interactive Virtual Classroom

5.4 Restrictions to using iVC software:

Common restrictions to using iVC software:

- Poor broadband connection
- VPN connections restrict video and audio. It is likely that the software will not function unless VPN is disabled.
- Some company systems are locked down preventing access. Either request that your IT department lifts the restriction on your device to access the software or that you use an alternative unrestricted device

5.5 iVC Software Security

Download details about the [security](#) measures imbedded in our iVC software.

6. XLE: On-line Portal

6. XLE: On-line Portal

6.1 XLE: Xact Learning Environment

A secure area of Xact's website built on Moodle educational platform used by schools, colleges and universities which gives customers and users access to:

6.2 Guidance Notes

Such as educational process, responding to questions, related policies and procedures.

6.3 Course reference documents

Reference documents used on the programme are provided either online or within course folder.

6.4 Submission deadlines

On-line calendar detailing deadlines.

6.5 Electronic submissions

All activity is submitted electronically online, enabling individuals to upload course work using electronic formats e.g. word and pdf.

6.6 Similarity check

Turnitin software is used to check submitted documents for originality using its database containing fire safety guidance and legislation, previous submissions and content of other websites with the aim of identifying plagiarism. This facility, which is used by colleges and universities, is applied to all submissions.

6.7 Assessor Reports

Assessor reports and feedback are available on the XLE portal.

7. Xact Consultancy and Training Limited

Company Registration No: 05295715
VAT Registration No: 855 4570 04
